Data Science & Analytics Competency Center

With a team of experienced Subject Matter Experts and well trained recruiters, our competency center understand the expectations of our customers and they speak the same business/technology language. Through a competency driven approach, we helped our customers by rapidly deploying more than 300 consultants with experience in Data Science and Analytics.

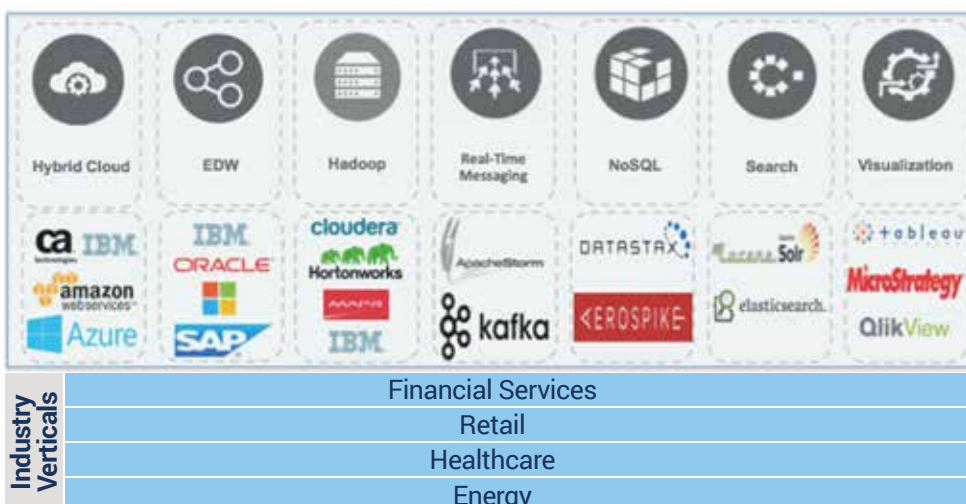

Our Value-Adds are:

- Specialized recruiters (not generalists) who are well trained in Data Science & Analytics industry.
- Regular Competency Training to Recruiters
- Pre Screening by SME and Technology Experts
- Post Placement workshops and regular networking by SME's
- On Going Training Support on Latest Tools and Technologies
- Sponsorship Support for Industry Certifications
- Access to technical resources through SI/ISV Partnerships with leaders like Horton Networks, Oracle, Microsoft and others
- Emphasis on Skill Development and knowledge sharing.
